75 Glenwood Dr  
Moncton, NB E1A 2M8

Dear Mr. LeBlanc:

Re: Your results on the WETT Woodburning Systems Course

Congratulations! Your grade on the WETT Woodburning Systems Course examination was 81 percent. As you know, the passing mark is 70%. Since you work as a municipal, fire, insurance or private inspector, the criteria for basic WETT certification is the following:

- 1) successful completion of Code Compliance,
- 2) successful completion of Woodburning Systems,
- 3) completed declaration verifying your inspection experience.

In order to complete your WETT certification, you need to submit your declaration verifying your field experience. We also require that a log accompany your declaration form. Inspection activity can include fire inspections, building inspections, insurance inspections and pre-purchase home inspections, provided that at least 60 inspections of wood burning appliances have been completed. A log must accompany the declaration form. The log must, as a minimum, list the dates and locations of these inspections.

Please remember that until you have completed the criteria you are not WETT certified and you are not allowed to advertise yourself as such. You must be very careful not to give anyone the impression that you are certified. You may only say that you are a student and are working towards WETT certification.

Sincerely,

Evonne Brant  
WETT Registrar
